DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- I. Figures 1
- II. Figures 1a
- III. Figure 1b
- IV. Figures 2,3,3a
- V. Figures 10-12
- VI. Figures 13-16

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Claim 12 relates to Figures 1-3a.
Claim 19 relates to Figures 1,1a,3a, and 13-16.
Claim 20 relates to Figures 1,1a, and 1b.
Claim 21 relates to Figures 1-3 and 3a.
Claim 22 relates to Figure 1a.
Claim 23 relates to Figure 1b.
Claim 24 relates to Figures 1 and 13-16.
Claim 25 relates to Figures 1 and 13-16.
Claim 26 relates Figure 1a.
Claim 27 relates to Figures 2-3 and 3a.
Claim 28 relates to Figures 2-3 and 3a.
Claim 29 relates to Figures 2-3 and 3a.
Claim 31 relates to Figures 10-12.
Claim 33 relates to Figures 10-12.
Claim 34 relates to Figures 1-3a.
Claim 35 relates to Figures 1-3a.
Claim 36 relates to Figures 1-3a.
Claim 37 relates to Figures 1-3a.
Claim 38 relates to Figures 1-3a.
Claim 39 relates to Figures 1-3a.
Claim 40 relates to Figure 1b.

The following claim(s) are generic: none.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: each species has a distinctive feature(s) which are not found in the other species.

A telephone call was made to Ms. Gudrun Huckett (#35,747) on April 9, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3636

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
